manage during independent projects as well as collaborate in a team environment.

EXPERIENCE

NOV, 2021 – JAN, 2022
WEB DEVELOPER, OKUSSAKULA

I created the landing page with ReactJS and Give Birth System with NextJS for Okussakula Startup consuming from a backend API made with .Net Core.

MAR, 2021 – SEP, 2021
FULLSTACK DEVELOPER, ABASTEÇA STARTUP

I was responsible for developing the ecosystem of
Abasteça Startup. I created a website to manage Abasteça
Services with Next Js.
I also created two applications, one related with geolocation and the way to manage the Abasteça subsystems using Expo.
All applications were integrated with firebase.

MAR, 2021 – JUL, 2021
REACT NATIVE MOBILE DEVELOPER, BAT DEV

I was responsible for bringing a UI and UX design to life using Expo, a framework and platform for universal React apps. I built an application that involves concepts such as delivery, e-commerce and much more. I also use TypeScript to build the app.

OCT, 2020 – MAR, 2021
FRONT END MOBILE DEVELOPER, MOCHI NOIR

I was responsible for creating a mobile application with React Native and Typescript.
The application was based on delivery app using 3rd party libraries API and consuming a Restful API
back-end. I also wrote unit tests.
