Developed and maintained mobile applications using React Native framework.

Collaborated with cross-functional teams to identify and resolve issues, design solutions, and implement new features.

Implemented software development best practices, including code reviews, automated testing, and continuous integration and deployment.

Conducted user research and analysis to inform product design decisions for mobile applications.

Worked with product managers to define user requirements and translate them into functional specifications.

Conducted usability testing and user interviews to validate design concepts and improve user experience.

—

Education

Instituto Superior Politécnico de Tecnologias e Ciências / Graduate Computer Engineering
Mar 2017 - Present, LUANDA, ANGOLA

Coursework included computer programming, algorithms and data structures, computer networks, database management systems, and software engineering.

—

Main Skills

HTML5 e CSS3

Javascript

Node Js

React Js

React Native / Expo

Typescript

React Ecosystem (Jest, React Query, React Hook Form, Yup, Redux, Zustand and more)

RESTful APIs

—

Useful Skills

Time Management

Team Collaboration

Agile Software Development

Requirements Gathering

Full Software Development Lifecycle

Complex Problem Solving

Bug Resolution

Avid Learner

—

Languages

Portuguese - Native

English - Moderate

French - Beginner
